

Family and Community Engagement (FACE) Family Empowerment Team • Guiding Principles

- Our Vision -

Developing educated, engaged, and empowered parents and staff who are academic partners in creating great schools in every neighborhood where Every Child Succeeds.

Our Foundational Beliefs

We believe the essential starting point for all of our work is relationship. We lean on our relationships to put our partnerships in context, understand our partners' challenges, support them effectively, and strive toward shared success. Our team believes shared success can only be achieved through aligning our goals and systems and applying the following principles to each element of our partnership.

Our Guiding Principles

MUTUAL ACCOUNTABILITY

We create shared ownership with our partners and take responsibility for realizing our vision of authentic and meaningful academic partnership as part of our Denver Plan 2020 goals.

AMPLIFYING AGENCY

We provide differentiated support, rooted in best practice family engagement strategies, to align to partners' needs, context and progress.

ADAPTIVE SERVICE

We believe each community has the keys to their own success and our role is to leverage our resources and amplify their passions, networks, and expertise.

PURPOSEFUL PRESENCE

We work with intention towards clearly stated goals and strategic actions at every stage of engagement with our partners.
