

## **POSTSECONDARY EDUCATION, TRAINING & WORKFORCE DEVELOPMENT: HOW POLICY AFFECTS ACCESS AND SUCCESS**

**Dr. Johan E. Uvin, President IEL**

Context

What Is Postsecondary Attainment Anyway?

What Is Policy?

What's Policy Got to Do with Postsecondary Educational Attainment?

What Is the Attainment Challenge for Appalachia?

What Does *Opening Doors* Recommend?

What Can You Do?

## Context: Trends in Population Growth – Rural versus Urban

### MEASURING AMERICA

December 8, 2016

#### Our Changing Landscape

Over the past century, the urban landscape of the United States has changed, and with it, so have rural areas. As urban areas and the criteria used to define them have evolved, the share of the total population living in rural areas has decreased. In the 1910 Census, more than half of the total population (54.4 percent) lived in rural areas. In the 2010 Census, only 1 in 5 of the total population (19.3 percent) lived in rural areas.

The American Community Survey is part of the decennial census program and uses the same definition of rural geographies. It allows us to provide rich detailed statistics about the rural and urban populations in America each year, not just every 10 years.

#### Change in Rural and Urban Population Size: 1910–2010

17.3%

<sup>1</sup> Includes never-married, widowed, and adopted children of the householder

## Context: Appalachia Education Snapshot

- 85.9% of adults ages 25 and older have earned a high school diploma in Appalachia compared to 87.0% of adults in the nation.
- 8.3% have an Associate's Degree versus 8.2% in the U.S.
- 23.2% hold a BA Degree versus 30.3% in the U.S. and 30.6% of BA holders have a STEM degree versus 34.7% in the U.S.

## Postsecondary Attainment: The Traditional View

**Figure 1: Population Age 25 and over by Educational Attainment: 1940-2017**

Sources: U.S. Census Bureau. 1947, 1952-2002 March Current Population Survey, 2003-2017 Annual Social and Economic Supplement to the Current Population Survey; 1940-1960 Census of Population.

**Figure 2: Percent of Population Age 25 and over by Educational Attainment:  
1940-2017**

Sources: U.S. Census Bureau. 1947, 1952-2002 March Current Population Survey, 2003-2017 Annual Social and Economic Supplement to the Current Population Survey; 1940-1960 Census of Population.

**Figure 5: Percent of Population 25 Years and older, and 25 to 29 Years old, with High School Diploma or higher by Sex: 1947-2017**

Sources: U.S. Census Bureau. 1947, 1952-2002 March Current Population Survey, 2003-2017 Annual Social and Economic Supplement to the Current Population Survey; 1940-1950 Census of Population.

## Postsecondary Attainment: A Broader View

## Unemployment rates and earnings by educational attainment, 2017

Note: Data are for persons age 25 and over. Earnings are for full-time wage and salary workers.

### FIRST-YEAR EARNINGS **FLORIDA**

## Associate's vs. Bachelor's Degree

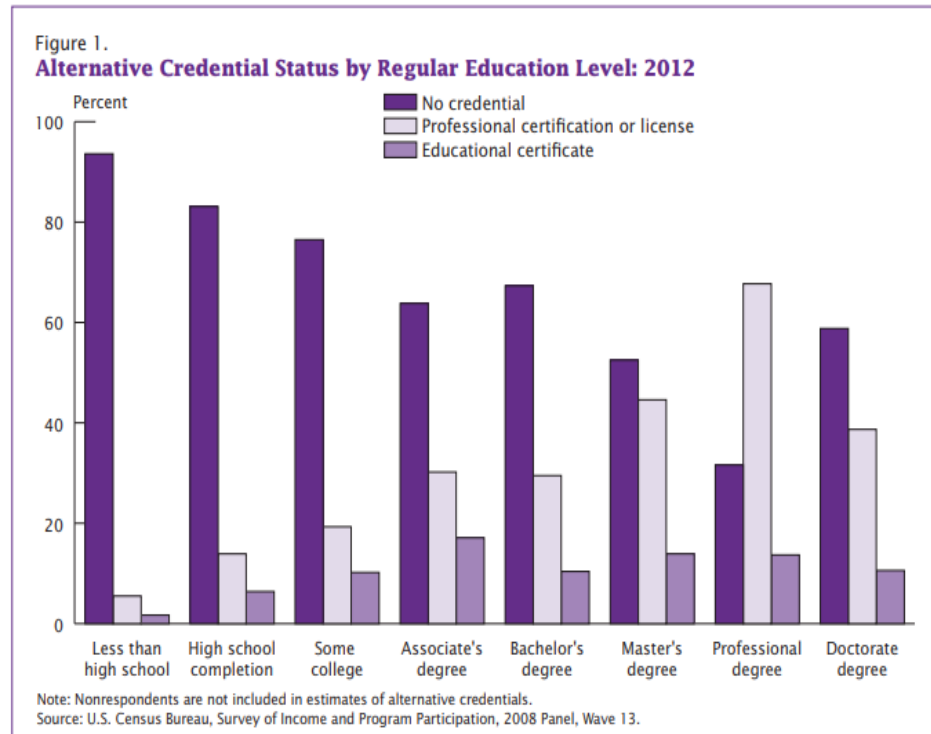

Median first-year earnings by degree type:  
Florida College System (FCS), and State University System (SUS)

Associate of Science (FCS)	\$43,876
Bachelor's (FCS)	\$41,420
Associate of Applied Science (FCS)	\$37,158
Bachelor's (SUS)	\$33,716
Associate of Arts (FCS)	\$27,452

# Alternative Credentials Matter

# Alternative Credentials Pay Off

Figure 2.  
**Median Monthly Earnings for Professional Certification or License Relative to No Alternative Credential by Education Level: 2012**

Note: Nonrespondents are not included in estimates of alternative credentials. Only people employed full-time for the 4 months before the survey with positive earnings are included in these analyses.

Source: U.S. Census Bureau, Survey of Income and Program Participation, 2008 Panel, Wave 13.

# Postsecondary Attainment in the Context of Population Growth

**Distribution of the Population by Race and Hispanic Origin for the Total Population and Population Under 18: 2014 and 2060**

Note: The percentages for the total population or the population under 18 may not add to 100.0 due to rounding. Unless otherwise specified, race categories represent race alone. NHPI=Native Hawaiian and Other Pacific Islander, AIAN=American Indian and Alaska Native. Minority refers to everyone other than the non-Hispanic White alone population. Source: U.S. Census Bureau, 2014 National Projections.

**What is the Problem We Are Hoping to Solve with Policy?**

***How Might We Increase Affordable Postsecondary Access & Completion, and Meaningful and Rewarding Jobs, Careers, and Enterprises in Appalachia?***

## Policy Defined

- Policy is everywhere. Public policy is a subset.

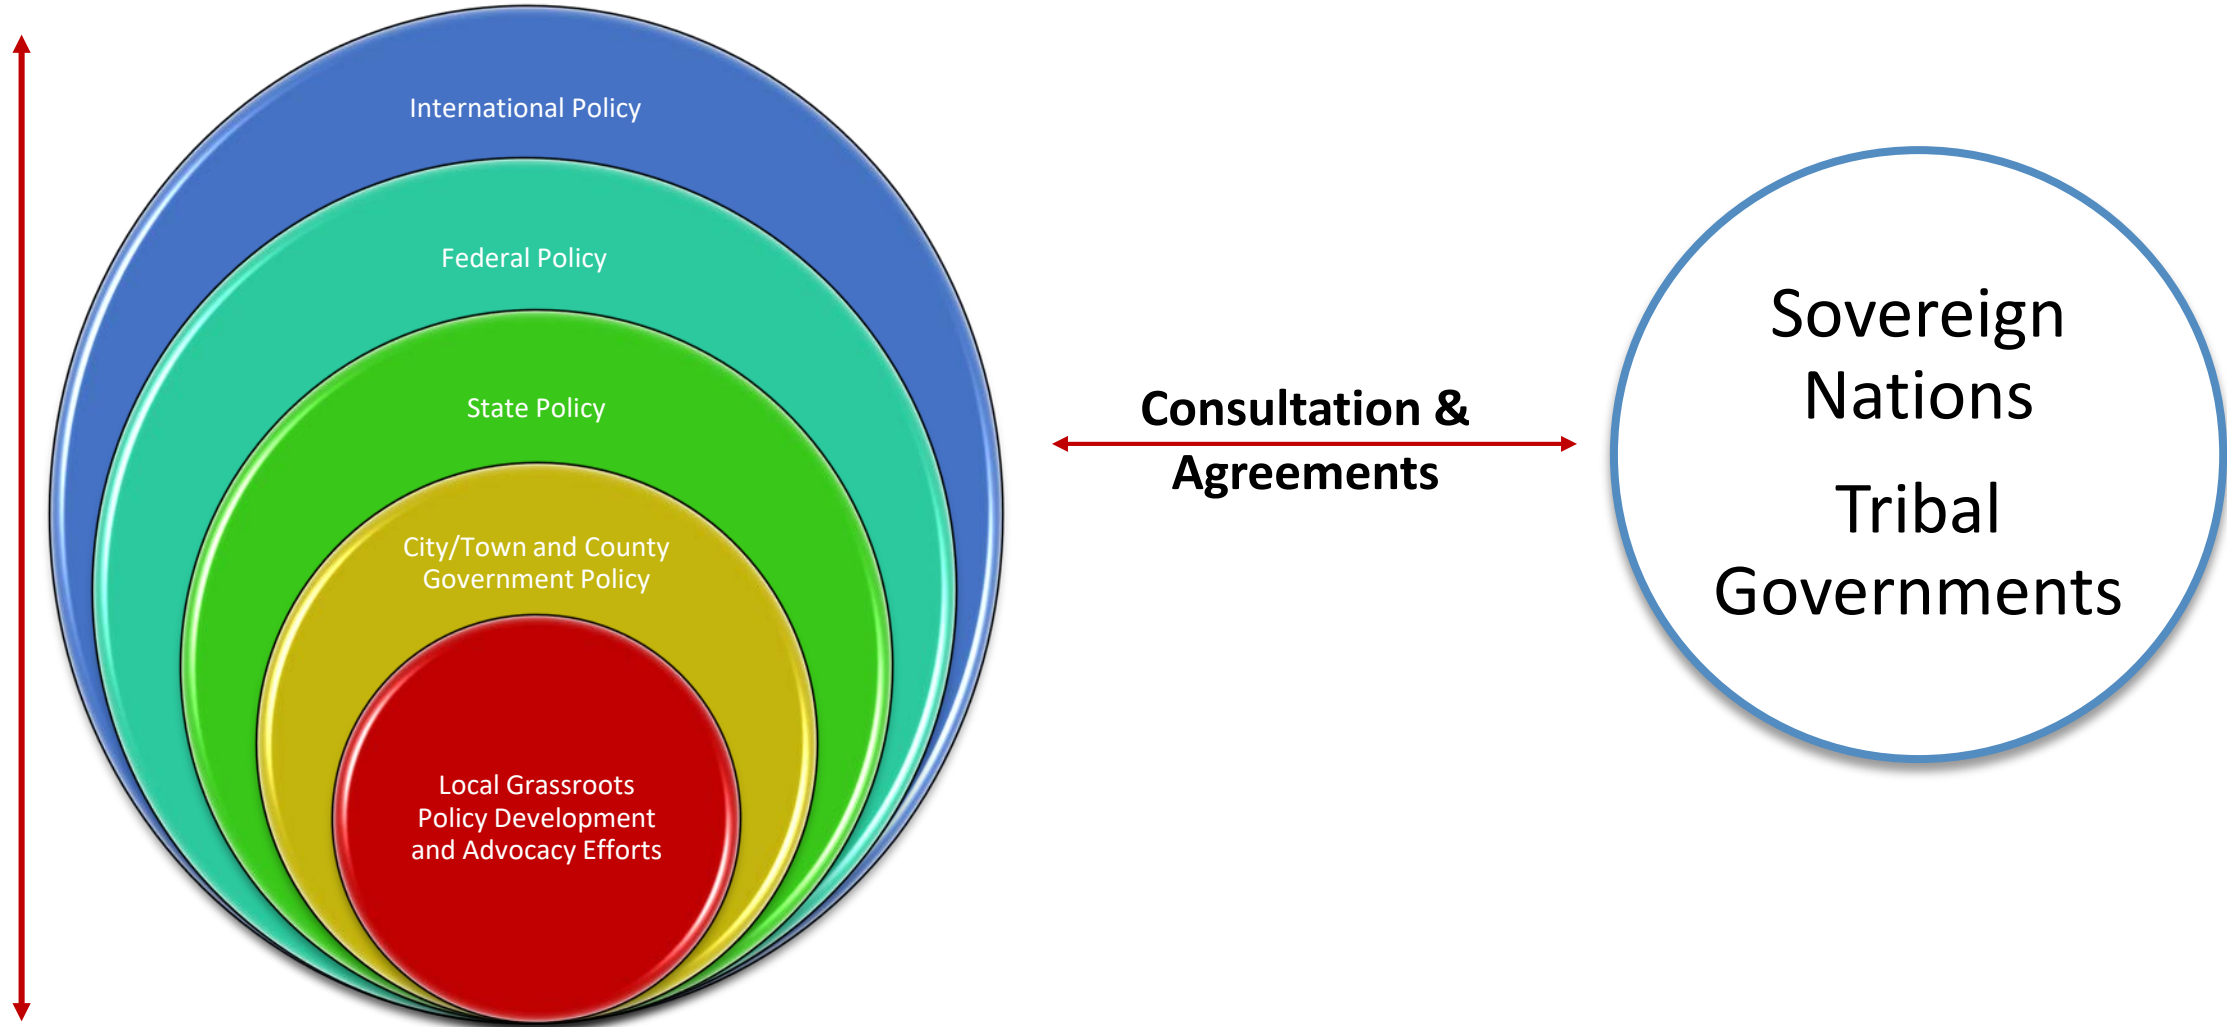

*“Public policy is a strategic action led by a public authority in order to limit or increase the presence of certain phenomena within the population” (National Collaborating Centre for Healthy Public Policy [NCCHPP], 2012).”*

## “Healthy” Public Policy

*Healthy public policy improves the conditions under which people live: secure, safe, adequate and sustainable livelihoods, lifestyles, and environments, including, housing, education, nutrition, information exchange, child care, transportation, and necessary community and personal social and health services.*

## Values Matter and Drive Policy Development

## Public Policy Can Matter

## Analyzing Public Policies: A Framework

<b>Effects</b>	Effects	What effects does this policy have on the problem it was designed to solve?	Durability
	Unintended Effects	What are the unintended effects of this policy?	
	Equity	What are the effects of this policy on different groups?	
<b>Implementation</b>	Cost	What does this policy cost (financially)?	
	Feasibility	Is this policy technically feasible?	
	Acceptability	Do the relevant constituents view this policy as reasonable/acceptable?	

***Policy Effects Do Not Always = Policy Objectives***

## Analyzing Public Policies: A Framework

<b>Effects</b>	Effects	What effects does this policy have on the problem it was designed to solve?	Durability
	Unintended Effects	What are the unintended effects of this policy?

***Policy Effects Do Not Always = Policy Objectives***

## Overall Improvement But Huge and Widening Gaps

## ***Family, Institutions, and Community Must Partner if Students Are to Succeed***

### **Collaborative Structures and Processes**

- Families: Partner with Schools and Teachers
- Institutions: Work Together
- Community: Re-establish the School as the Center of the Community

### **Policies and Practices that Expand Options**

- Access to STEM Courses
- AP Courses access
- Dual Enrollment and Dual Credit Programs
- Accelerated and Extended High School Programs Leading to HSD and Associate's Degrees
- Career Pathway Programs: CTE+
- Apprenticeship Programs

# Strategic Actions to Increase Postsecondary Education Opportunity and Attainment in Appalachia

## Policy Actions: Leverage Existing Policy – Create New Policy

### Maximize Federal Public Policy

- Experimental Sites
- Ability-to-Benefit
- Career pathways

### Maximize State Public Policy

- Promise Programs
- Merit-Based Free College Tuition or Scholarships

### Maximize Local/County Policy

- Dual Degree High Schools

### Challenge Policy

- File Complaints
- Practice “Civil Disobedience”
- Litigate

### Create Your Own Policy

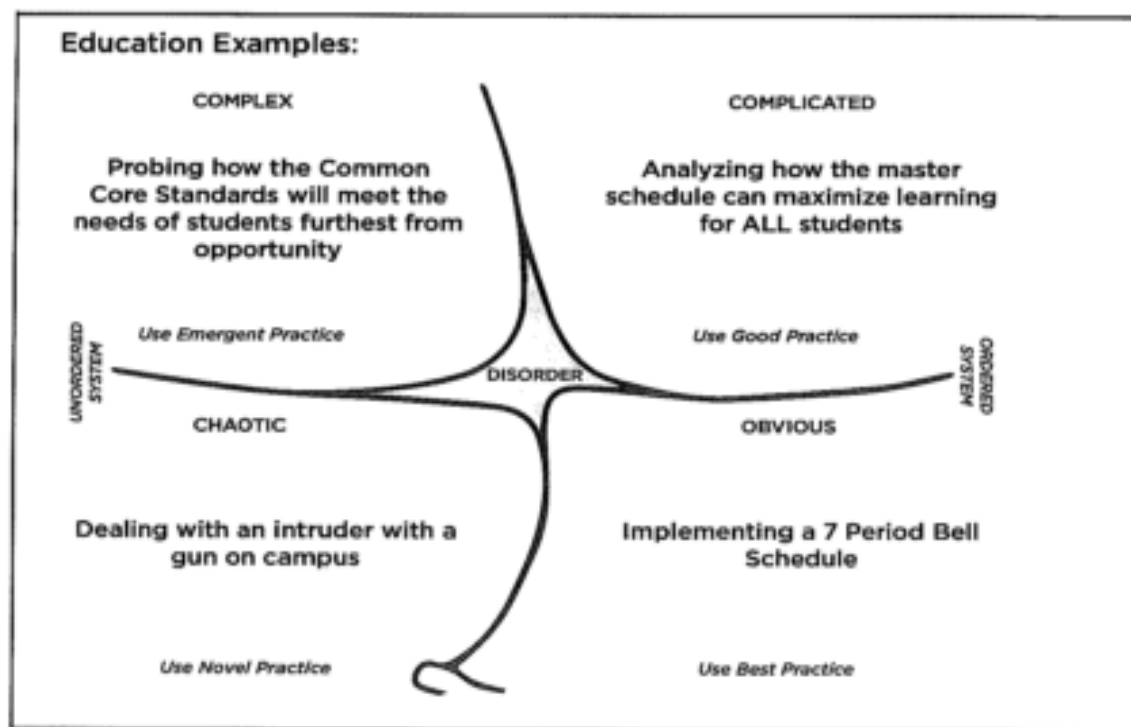

- Grassroots
- Beyond Public Policy

## Create Your Own Policies: A Cross-Sectoral, Collaborative, and Community-Based Approach

## Collective Identification of Barriers and Root Causes

Figuring out what type of issue you are facing  
*Leader's framework for problem solving and decision making (NEP)*

# Everyone is a leader!

IEL believes everyone can play a leadership role. In our work, we focus specifically on youth and adult educational leadership, workforce sector leadership, youth development leadership, parent and family leadership, and community leadership through a range of initiatives and partnerships ...

*Everyone is a leader. Leadership resides inside all of us. Leadership development, then, is the process of nurturing and bringing out this ability to take responsibility and action steps to pursue changes that benefit individuals and the communities in which they live.*

Everyone  
makes  
choices!

*We often underestimate  
how much discretion  
positional leaders have.  
We often underestimate the  
power of our individual and  
collective choices and  
actions.*
